

MAKES YOUR HOUSE YOUR HOME

PREMIUM QUALITY NATURAL WOOD

Since 1999, Sylvia has been committed to provide the highest quality of Natural wood veneers handpicked by the experts from finding to peeling, peeling tree to manufacturing. Our team travels to field to fields, mountains and plains to the ends of the earth to pick the best quality wood from nature's collection.

WHO WE ARE

We are Sylvania Veneers & Ply, a leader in manufacturing premium quality veneers, plywood and allied products. Our mission is to deliver flawless products to our customers.

Our manufacturing units use state-of-the-art machinery to ensure the precise calibration. In terms of quality and variety of the wood veneers, Sylvania takes pride to have the most exquisite collection of wood. Our quality control department ensures the accurate calibration and design perfection prior to shipment of the order. From Mangyfera to Santosh, and Cedar, Oak to teak we import materials from all the continents, so that our lovely customers get the widest range of choices in wood veneers and plywood.

Our workforce comprises:

- Procurement Executives
- Skilled designers
- Craftsmen
- Technicians
- Quality controllers
- Warehousing & logistic experts
- Sales and marketing professionals
- Skilled workers

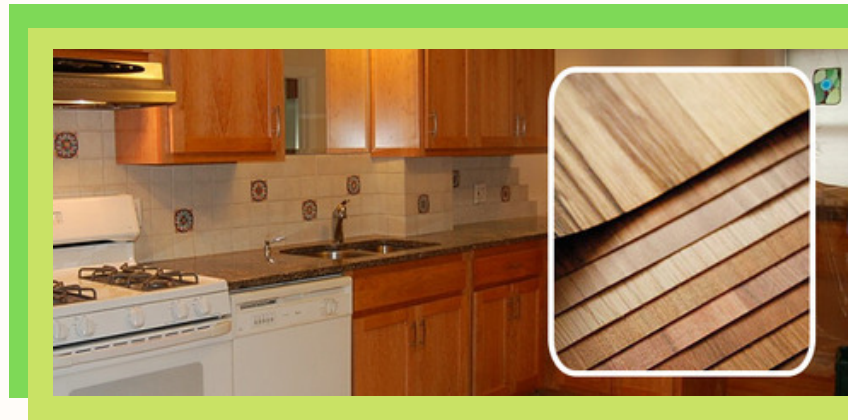

“

“

OUR KNOWLEDGEABLE AND EXPERIENCED PROFESSIONALS WORK IN CLOSE PROXIMITY TO COMPLETE THE BROAD AND EXACT DEMANDS OF CLIENTS. HIGHLY ENERGIZED AND EAGER, OUR TEAM MEMBERS MAKE US PROBABLE TO ACCOMPLISH OUR SET AIMS WITHIN THE LIMITED TIME PERIOD.

”

CARB II CERTIFIED PRODUCTS

WE ALSO PROVIDE CARB II CERTIFIED PRODUCTS

CARB Certification: Intertek is a leading independent third-party testing and inspection services provider and a CARB approved Third Party Certifier (TPC) qualified to perform an extensive range of services including:

Formaldehyde emission testing on wood panel and finished goods.

Establishing Quality Control Limits:

Formaldehyde is a pretty common chemical. Our wallpapers, textiles, vinyl and even toothpaste contain formaldehyde. The plywood that makes up your ceilings, walls and cabinets also contain formaldehyde, since plywood products are bonded using adhesives that contain the chemical.

“

CARB2 IS A CERTIFICATION PROCESS INSTITUTED BY THE CALIFORNIA AIR RESOURCES BOARD (CARB) TO REDUCE FORMALDEHYDE EMISSIONS AND PROTECT THE PUBLIC FROM AIRBORNE TOXIC CONTAMINANTS
